FAQ

Frequently Asked Questions

- Q. I am importing a vehicle from Japan. What do I have to do when the vehicle arrives to get it cleared?
- A. Once you have ordered a vehicle from Japan, The documents will be sent to you Via DHL or UPS. The package will contain all of the necessary documents for the clearance of your vehicle. Upon receipt of the documents, you then proceed to the Shipping Agent, which will be stated in your instructions in the package. You will be responsible for the local landing fees which are not included in the fees paid to the company you have purchased your vehicle. Give the Local Landing Receipt along with the other documents to your broker to be submitted to Customs for the Clearance of the vehicle. Duty is applicable on the Value of the Vehicle. Levy is charged for each vehicle and a processing fee is charged on the Value of the vehicle. The VAT is charged on the Landed Cost which consists of the Cost of the Vehicle, Freight, Excise Duty, Levy and Processing fee. If the VAT was paid on the local landing charges then it does not have to be added to the Customs Entry. A conditional report will be prepared by the Customs Department stating the condition of the vehicle at the time of arrival. This too should be attached to the Customs entry either Digitally or in hard copy.
- Q. What documents do I need to clear a shipment entering the country as freight?
- A. Each import requires all relevant invoices, Freight Bill, Freight Invoice and the relevant Customs entry form. If an entry is made digitally, the customs system will prepare all documents once the information is submitted.
- Q. When coming in as a passenger what exemption am I entitled to?
- A. Each resident is entitled to \$500 exemption twice a year. Each Visitor is entitled to \$100 each trip.
- Q. How do you become a broker?
- A. To become a Broker, one must apply to the Office of the Comptroller and must inform the Comptroller of his/her intention. The exam date, as well as any information on courses or reviews for the exams would then be sent to the requestor as it is available.
- Q. Can The Customs Officer change the value of the item that I have declared?
- A. The Bahamas Customs Department values all goods based on the WTO Valuation Agreement. Where Duty is collected on "ad valorem" (meaning the levying of tax or customs duties) in proportion to the estimated value of the goods or transaction concerned)) rates of duty shall be appraised according to the provisions set out below:

<u>Price Actually Paid or Payable (PAPP)</u> - The primary means of valuation is determined by the transactional value or the actual price paid where it can be determined that there is no conditional relationship between the buyer and seller. All costs included which benefit the seller are included in the transactional value. Where it is easily determined that a charge on the invoice is paid to any other freight forwarder or delivery company it may be deducted from the transactional value and included on the calculations for VAT only:

<u>Value of Identical Goods</u> - Where the PAPP cannot be determined, or it is found to be that the sale was conditional or based on a relationship, Customs may find the value of identical goods and use that value for the clearing of that shipment;

Frequently Asked Questions

<u>Value of Similar Goods</u> - Where the Value of Identical Goods is not found, the Customs may determine a value based on the value of similar goods, taking into account difference in size, brands or any other differences;

<u>Deductive Value</u> - Where the value of similar goods cannot be determined, a deductive value may be determined by Customs. This is done by determining the transactional value of individual units which make up the item which is being imported;

<u>Computed Value</u> - Where the Deductive value may not be determinable, Customs may compute the value based on the value of the materials that was required to make the item being imported; and

<u>Residual basis of valuation</u> - Where the computed value is not determinable, Customs may compute the value based on Residual Value, which is any value which may be determined by combining any of the previous valuation methods to derive the true transactional value.

The Bahamas Customs does not value goods based on:

- the selling price within the Bahamas
- The higher of two alternative values
- The price on the domestic market
- Cost of production, other than computed values which are determined above.
- The price of goods for export to a country other than this Customs Territory.
- Minimum Customs values; or
- Arbitrary or fictitious values.

Q. If I have lost or misplaced my invoice, how can I clear my goods?

- A. All shipments being entered into The Bahamas require a proper invoice from the supplier. In the absence of the proper invoice, the importer may contact the supplier and have a copy of the invoice sent either by electronic format or in hard copy.
- Q. What format of documents does Customs accept for electronic submission of documents.
- A. Customs accepts xls, pdf, doc, or csv formats for declarations, however in the submission of support documents, it is a requirement that the documents are submitted in a electronic signature format, such as pdf, tif, jpg. The format for all invoices and supporting documents should be in a format where it cannot be altered when sent to them by the suppliers.

These questions are based on frequent enquires made to the Training Unit daily. Please feel free to call the customs office for any further clarification or any further questions to be answered accurately.
